“We’ve got you covered.”

About C² International

C² International (C2I) is committed to providing world-class solutions to meet a wide variety of international business needs. C2I has the unique ability to provide dedicated support and services to your company as you expand internationally. C2I employees and consultants have expertise in global trade compliance with diverse international backgrounds, including proficiency in Mandarin Chinese and French which will help streamline your company’s growth into the international market.

C2I is a Disabled Veteran-owned and Woman-owned small business.

What We Do

Canopy Consulting International (C2I) is a professional services business consulting firm specializing in multi-disciplinary solutions to meet a wide variety of international business needs and compliance requirements for small and medium-sized enterprises. We support wholly domestic companies as well as companies expanding internationally throughout the entire business lifecycle. The types of services we provide include: business development and growth potential identification, negotiation and closing of business deals; global trade compliance support such as understanding and complying with Sanctions Programs, Anti-Boycott Regulations, Anti-Corruption Regulations, etc.; corporate compliance support such as avoiding Organizational/Personal Conflict of Interest (OCI/PCI); and export compliance support to help successfully navigate U.S. export control regulations.

C2I is a U.S.-based international consulting firm directly supporting U.S. Government agencies, universities and U.S. business operations around the globe. Experience operating in Asia, the Middle East, and Europe, combined with experience in various disciplines of engineering, program management, business development, and organizational and export compliance provides C2I a unique ability to support your company’s diverse international business and compliance needs.

Services

C2I provides professional services such as global trade compliance, organizational compliance, international business relations, and business development activities that will support your company’s compliance and international expansion requirements. C2I professionals have expertise in a wide variety of vital areas that benefit companies expanding internationally including:
